

Notes

Creative Director: Christina Lu

Webpage: Mario

- Put years under “Games” tab
- Hover on first page: if include the function then maybe limit to just one sentence that summarizes the section or image
- If get rid of hover then maybe add power star to fill up empty space without being messy with additional images
- History: show how his appearance changes over the years, no need to add descriptions, just images and year (Maybe add it in a different section in history tab)
- Games: Show game cover with title and year; add short description/summary if fitting
- Sources tab!!
