Project Title: Tea

Ideally this would be a multiple-paged site, with tabs to navigate through the different sections. Special focus will be on tea and its interaction with different cultures.

- **Home Page/Introduction** - Keep it simple! Title page with links to other sections within the topic up top.
- **Origin & History** - Where it began (+ timeline); how it spread to other parts of the world
- **Cultivation & Harvesting**
- **Health Effects** - touch on chemical compounds that are relevant
- **Processing** (Keep it brief!)
- **Preparation and Consumption** - flavoring techniques/ tea blending/list of different types/serving
- **Tea Culture** - By region: how do people use/treat their tea today
- **Sources** – List of sources for entire site, including Wikipedia page and links to images.
